

In a time when the country is dangerously divided, it's important that the broadcast media presents objective reporting. Sinclair news has obviously decided that its own partisan views are more important than responsibly serving the public.

Please work to create a definition of "news" that requires objective, balanced reporting. Journalism as a whole is in danger of being "bought" by corporate interests.

Require Sinclair News to give equal time on the airwaves to the other, pro-Kerry side.

Thank you.

Mark Dahlby
